

Compass Eko Trust

Relationships Education, Relationships and Sex
Education (RSE) and Health Education

Monitoring, evaluation and review

The Standards Committee will assess the implementation and effectiveness of this policy.
The policy will be promoted and implemented throughout all Trust schools.

This Policy will be reviewed by the Standards Committee on a 3 yearly cycle.

Adherence to the policy will be monitored by the Local School's Committee.

Policy adopted:	Summer Term 2026
Other related policies:	Child protection policy Online line safety policy Guest speakers' policy Behaviour and relationships policy Equalities policy Inclusion / SEND policy
Next Review:	Summer Term 2029

Aims

The aim of Relationships and Sex Education (RSE) is to equip pupils with the knowledge, skills and values needed to be safe, healthy and prepared for life in modern Britain. It supports pupils' emotional, social and cultural development, helping them to understand relationships, health, wellbeing, and personal identity in a safe and age-appropriate way.

It provides accurate, factual information alongside opportunities to explore values, within a framework that is respectful, evidence-based and grounded in the law.

RSE has a clear focus on developing positive, respectful relationships, understanding boundaries, and keeping safe, including online.

Schools within the Compass Eko deliver high-quality, age-appropriate, pupil-sensitive and evidence-based RSE, reflecting respect for the law and diverse communities. RSE helps pupils understand themselves and the world around them, enabling them to flourish now and in adulthood.

This policy has been informed by consultation with parents, pupils and a range of stakeholders to ensure it is transparent and responsive to community needs.

RSE is delivered in line with statutory DfE guidance and is age- and developmentally appropriate, with a clear focus on safeguarding and pupil wellbeing.

Objectives

The curriculum aims to:

- support pupils' physical, emotional, social and moral development;
- promote self-respect and respect for others;
- provide accurate, age-appropriate knowledge about relationships, families, consent, online safety and human development;
- develop understanding of healthy, respectful relationships and boundaries;
- help pupils recognise risk and know how to seek support;
- enable informed and responsible decision-making;
- ensure teaching is inclusive, balanced and sensitive, including for pupils with SEND;
- support understanding of the law relating to relationships and safety;
- promote partnership with parents and carers.

Statutory requirements

As a Trust, we provide Relationships Education to all pupils in line with section 34 of the *Children and Social Work Act 2017*.

We also teach the statutory elements of sex education through the National Curriculum for science, including how the human body grows and reproduces.

RSE is delivered in accordance with statutory guidance issued under section 403 of the *Education Act 1996*, ensuring that teaching is age-appropriate, evidence-based and supports safeguarding, wellbeing and pupil understanding of the law.

We recognise that parents and carers are a child's first educators and work in partnership with them by sharing curriculum content and responding to any questions or concerns.

We also fulfil our duties under:

- sections 406 and 407 of the *Education Act 1996*;
- the *Equality Act 2010*, including the Public Sector Equality Duty (eliminate discrimination; advance equality of opportunity; foster good relations between different groups.)

Safeguarding underpins all aspects of RSE. Any concerns or disclosures arising during lessons are managed in line with the school's safeguarding and child protection policy.

RSE at Compass EKO schools is delivered in line with this policy and current statutory requirements.

This policy has been developed in consultation with parents, pupils and key stakeholders, in line with statutory requirements. The school will continue to engage with parents and carers to ensure transparency and responsiveness to the needs of the community.

Right to Withdraw

Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of Relationships and Sex Education (RSE).

In secondary, head teachers can refuse a request in exceptional circumstances, for example because of safeguarding concerns or a pupil's specific vulnerability. From three terms before the pupil turns 16, a pupil can choose to opt back into sex education even if their parent has requested withdrawal. For example, if a pupil turns 16 during the autumn term, the pupil can opt back into sex education at any time after the start of the previous autumn term. Schools should ensure that pupils know they have this option.

In primary schools, this right only applies to any additional sex education that is not part of the statutory National Curriculum for science. There is no right to withdraw from:

- Relationships Education (which is statutory);
- Health Education;
- the science curriculum, including content on human development and reproduction.

Requests for withdrawal should be made in writing to the headteacher. The school will discuss the request with parents to ensure they are fully informed about the content and purpose of the curriculum.

If a pupil is withdrawn from sex education, the school will ensure that appropriate, purposeful alternative learning is provided.

The school will respect parents' rights while also recognising its responsibility to provide pupils with the knowledge and skills needed to stay safe, form healthy relationships and understand the world around them.

Equality and Inclusion

RSE is delivered in line with the Equality Act 2010 and is inclusive of all pupils. Teaching reflects the diversity of families and communities, ensuring that no pupil is disadvantaged or stigmatised because of their background, beliefs or circumstances. Content is age-appropriate, sensitive and respectful, and supports pupils to understand difference, challenge discrimination and build positive relationships. All teaching is adapted where necessary to meet the needs of pupils, including those with SEND, while remaining consistent with the law and safeguarding responsibilities.

Use of Resources

Resources used to deliver RSE including those from external organisations are carefully selected to ensure they are appropriate, accurate and aligned with statutory guidance. Materials are age-appropriate, evidence-based and sensitive to pupils' developmental stage, and support the delivery of factual, balanced and inclusive teaching.

All resources are regularly reviewed to ensure they remain relevant, up to date and suitable for the needs of pupils and the school community. Teachers use professional judgement to adapt materials where necessary, ensuring that content is accessible to all pupils, including those with SEND.

The school ensures that resources reflect the law, promote respect and do not reinforce stereotypes or discrimination.

Parents and carers can request to view resources used in RSE as part of our commitment to transparency and partnership working.

Roles and Responsibilities

The governing body ensures that the school meets its statutory duties in relation to Relationships and Sex Education (RSE), including approving this policy and monitoring its effectiveness.

The headteacher has overall responsibility for the implementation of this policy, ensuring that RSE is delivered in line with statutory guidance and that staff are appropriately trained and supported.

Staff delivering RSE are responsible for ensuring that teaching is accurate, age-appropriate, inclusive and sensitive, and for creating a safe environment in which pupils can learn and ask questions. They must also follow the school's safeguarding procedures and respond appropriately to any concerns or disclosures.

The RSE/PSHE lead (or designated member of staff) is responsible for overseeing the curriculum, supporting staff, monitoring delivery and ensuring resources remain appropriate and up to date.

Parents and carers play a key role in supporting their child's learning and are encouraged to engage with the school and the RSE curriculum.

Pupils are expected to engage in learning respectfully, following class rules and contributing to a safe and supportive learning environment.

Monitoring and Evaluation

The delivery and impact of RSE are regularly monitored and evaluated to ensure the curriculum remains effective, relevant and compliant with statutory requirements.

Monitoring may include lesson observations, learning walks, pupil voice, staff feedback and curriculum reviews, led by the PSHE/RSE lead and senior leaders.

The school evaluates RSE to ensure that teaching is age-appropriate, inclusive and supports pupils' understanding of relationships, safety and wellbeing. Feedback from pupils and parents is considered as part of this process.

Findings from monitoring and evaluation are used to inform improvements to the curriculum, teaching and resources, and to identify any staff training needs.

The governing body receives updates, as appropriate, to support its role in oversight and accountability.

Responding to Pupil Questions

Staff will answer pupils' questions in a way that is consistent with statutory guidance, age-appropriate, and supportive of safeguarding.

Teachers will use their professional judgement to provide clear, factual and balanced answers that reflect the curriculum and are appropriate to the pupil's level of understanding. Where a question goes beyond the planned curriculum or is not appropriate for the whole class, staff may:

- acknowledge the question and provide a brief, general response where appropriate;
- defer the question, explaining that it will be covered at a later stage or is better discussed at home with a parent or carer;
- avoid giving detailed or explicit information that is not suitable for the pupil's age or stage of development.

Staff will ensure that responses do not promote or normalise harmful, illegal or unsafe behaviour, and remain consistent with the law and school policy.

Where a question raises a safeguarding concern or indicates that a pupil may be at risk, staff will follow the school's safeguarding procedures.

A classroom environment will be maintained where pupils feel safe to ask questions, while understanding that not all questions can be answered fully in a whole-class setting.

Curriculum

The RSE curriculum is progressive and sequenced, building knowledge and skills over time in line with DfE statutory guidance. Content is age-appropriate, evidence-based and supports safeguarding, ensuring pupils are prepared for each stage of development.

Relationships education (Primary)

Families and people who care for me Curriculum content:

1. That families are important for children growing up safe and happy because they can provide love, security and stability.

2. The characteristics of safe and happy family life, such as commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
3. That the families of other children, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
4. That stable, caring relationships are at the heart of safe and happy families and are important for children's security as they grow up.
5. That marriage and civil partnerships represent a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
6. How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships Curriculum content:

1. How important friendships are in making us feel happy and secure, and how people choose and make friends.
2. That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. Pupils should learn skills for developing caring, kind friendships.
3. That not every child will have the friends they would like at all times, that most people feel lonely sometimes, and that there is no shame in feeling lonely or talking about it.
4. The characteristics of friendships that lead to happiness and security, including mutual respect, honesty, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
5. That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened.
6. How to manage conflict, and that resorting to violence is never right.
7. How to recognise when a friendship is making them feel unhappy or uncomfortable, and how to get support when needed.

Respectful, kind relationships Curriculum content:

1. How to pay attention to the needs and preferences of others, including in families and friendships. Pupils should be encouraged to discuss how we balance the needs and wishes of different people in relationships and why this can be complicated.
2. The importance of setting and respecting healthy boundaries in relationships with friends, family, peers and adults.

3. How to communicate effectively and manage conflict with kindness and respect; how to be assertive and express needs and boundaries; how to manage feelings, including disappointment and frustration.
4. Pupils should have opportunities to discuss the difference between being assertive and being controlling, and conversely the difference between being kind to other people and neglecting your own needs.
5. That they can expect to be treated with respect by others, and the importance of respecting others, including those who are different (for example, physically, in character, personality or backgrounds), or make different choices, or have different preferences or beliefs.
6. Practical steps they can take and skills they can develop in a range of different contexts to improve or support their relationships.
7. The conventions of courtesy and manners.
8. The importance of self-respect and how this links to their own happiness. Pupils should have opportunities to think about how they foster their own self-esteem and build a strong sense of their own identity, including through developing skills and interests.
9. The different types of bullying (including online bullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult), and how to get help.
10. What a stereotype is, how stereotypes can be unfair, negative, destructive or lead to bullying and how to challenge a stereotype.
11. How to seek help when needed, including when they are concerned about violence, harm, or when they are unsure who to trust.

Being Safe Curriculum content:

1. What sorts of boundaries are appropriate in friendships with peers and others (including online). This can include learning about boundaries in play and in negotiations about space, toys, books, resources etc.
2. The concept of privacy and its implications for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
3. That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe contact, including physical contact.
4. How to respond safely and appropriately to adults they may encounter (in all contexts, including online), including those they do and do not know.
5. How to recognise when a relationship is harmful or dangerous, including skills for recognising who to trust and who not to trust.

6. How to report abuse, concerns about something seen online or experienced in real life, or feelings of being unsafe or feeling bad about any adult and the vocabulary and confidence needed to do so.

7. How to ask for advice or help for themselves or others, and to keep trying until they are heard. Where to get advice e.g. family, school and/or other sources.

Sex Education (Primary)

Sex education is not compulsory in primary schools, but it is recommended that it is taught in Years 5 or 6 alongside the science curriculum, which includes learning about puberty, growth, and reproduction. Any teaching about human reproduction should remain factual and in line with the science curriculum.

Schools should consult with parents about the content of sex education, support them in discussing these topics at home, and clearly explain their right to request withdrawal.

Health and wellbeing (Primary)

General wellbeing Curriculum content:

1. The benefits of physical activity, time outdoors, and helping others for health, wellbeing and happiness. Simple self-care techniques, including the importance of rest, time spent with friends and family, as well as hobbies, interests and community participation.
2. The importance of promoting general wellbeing and physical health.
3. The range and scale of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) that they might experience in different situations. Pupils should understand that worrying and feeling down are normal, affect everyone at different times, and are not in themselves a sign of a mental health condition.
4. How to recognise feelings and use varied vocabulary to talk about their own and others' feelings.
5. How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
6. That isolation and loneliness can affect children, and the benefits of seeking support.
7. That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing and how to seek help for themselves or others.
8. That change and loss, including bereavement, can provoke a range of feelings, that grief is a natural response to bereavement, and that everyone grieves differently.
9. Where and how to seek support (including recognising the triggers for seeking support), including who in school they should speak to if they are worried about their own or

someone else's mental wellbeing or ability to control their emotions (including issues arising online).

10. That it is common to experience mental health problems, and early support can help.

Wellbeing online Curriculum content:

1. That for almost everyone the internet is an integral part of life. Pupils should be supported to think about positive and negative aspects of the internet.

2. Pupils should be supported to discuss how online relationships can complement and support meaningful in-person relationships, but also how they might be in tension, and the reasons why online relationships are unlikely to be a good substitute for high quality in-person relationships, looking at the pros and cons of different ways of using online connection.

3. The benefits of limiting time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.

4. How to consider the impact of their online behaviour on others, and how to recognise and display respectful behaviour online.

5. Why social media, some apps, computer games and online gaming, including gambling sites, are age restricted.

6. The risks relating to online gaming, video game monetisation, scams, fraud and other financial harms, and that gaming can become addictive.

7. How to take a critical approach to what they see and read online and make responsible decisions about which content, including content on social media and apps, is appropriate for them.

8. That abuse, bullying and harassment can take place online and that this can impact wellbeing. How to seek support from trusted adults.

9. How to understand the information they find online, including from search engines, and know how information is selected and targeted.

10. That they have rights in relation to sharing personal data, privacy and consent.

11. Where and how to report concerns and get support with issues online.

Physical health and fitness Curriculum content:

1. The characteristics and mental and physical benefits of an active lifestyle.

2. The importance of building regular physical activity into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, moderate and/or vigorous physical activity.
3. The risks associated with an inactive lifestyle, including obesity.
4. How and when to seek support including which adults to speak to in school if they are worried about their health.

Healthy eating Curriculum content:

1. What constitutes a healthy diet (including understanding calories and other nutritional content).
2. Understanding the importance of a healthy relationship with food.
3. The principles of planning and preparing a range of healthy meals.
4. The characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).

Drugs, alcohol, tobacco and vaping Curriculum content:

1. The facts about legal and illegal harmful substances and associated risks, including smoking, vaping, alcohol use and drug-taking. This should include the risks of nicotine addiction, which are also caused by other nicotine products such as nicotine pouches.

Health protection and prevention Curriculum content:

1. How to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.
2. About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
3. The importance of sufficient good quality sleep for health, the amount of sleep recommended for their age, and practical steps for improving sleep, such as not using screens in the bedroom. The impact of poor sleep on weight, mood and ability to learn.
4. About dental health and the benefits of good oral hygiene, including brushing teeth twice a day with fluoride toothpaste, cleaning between teeth, and regular check ups at the dentist.
5. About personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.
6. The facts and scientific evidence relating to vaccination and immunisation. The introduction of topics relating to vaccination and immunisation should be aligned with when vaccinations are offered to pupils.

Personal safety Curriculum content:

1. About hazards (including fire risks) that may cause harm, injury or risk and ways to reduce risks.
2. How to recognise risk and keep safe around roads, railways, including level crossings, and water, including the water safety code.

Basic first aid Curriculum content:

1. How to make a clear and efficient call to emergency services if necessary, including the importance of reporting incidents rather than filming them.
2. Concepts of basic first aid, for example dealing with common injuries and ailments, including head injuries.

Developing bodies Curriculum content:

1. About growth and other ways the body can change and develop, particularly during adolescence. This topic should include the human lifecycle, and puberty should be discussed as a stage in this process.
2. The correct names of body parts, including the penis, vulva, vagina, testicles, scrotum, nipples. Pupils should understand that all of these parts of the body are private and have skills to understand and express their own boundaries around these body parts.
3. The facts about the menstrual cycle, including physical and emotional changes, whilst the average age of the onset of menstruation is twelve, periods can start at eight, so covering this topic before girls' periods start will help them understand what to expect and avoid distress.

Secondary

Relationships and Sex Education (RSE): Secondary**Families Curriculum content:**

1. That there are different types of committed, stable relationships.
2. How these relationships might contribute to wellbeing, and their importance for bringing up children.
3. Why marriage or civil partnership is an important relationship choice for many couples. The legal status of marriage and civil partnership, including that they carry legal rights, benefits and protections that are not available to couples who are cohabiting or who have, for example, undergone a non-legally binding religious ceremony.

4. That 'common-law marriage' is a myth and cohabitants do not obtain marriage-like status or rights from living together or by having children.
5. That forced marriage and marrying before the age of 18 are illegal.
6. How families and relationships change over time, including through birth, death, separation and new relationships.
7. The roles and responsibilities of parents with respect to raising children, including the characteristics of successful parenting and the importance of the early years of a child's life for brain development.
8. How to judge when a relationship is unsafe and where to seek help when needed, including when pupils are concerned about violence, harm, or when they are unsure who to trust.

Respectful relationships Curriculum content:

1. The characteristics of positive relationships of all kinds, online and offline, including romantic relationships. For example, pupils should understand the role of consent, trust, mutual respect, honesty, kindness, loyalty, shared interests and outlooks, generosity, boundaries, tolerance, privacy, and the management of conflict, reconciliation and ending relationships.
2. How to evaluate their impact on other people and treat others with kindness and respect, including in public spaces and including strangers. Pupils should understand the legal rights and responsibilities regarding equality, and that everyone is unique and equal.
3. The importance of self-esteem, independence and having a positive relationship with oneself, and how these characteristics support healthy relationships with others. This includes developing one's own interests, hobbies, friendship groups, and skills. Pupils should understand what it means to be treated with respect by others.
4. What tolerance requires, including the importance of tolerance of other people's beliefs.
5. The practical steps pupils can take and skills they can develop to support respectful and kind relationships. This includes skills for communicating respectfully within relationships and with strangers, including in situations of conflict.
6. The different types of bullying (including online bullying), the impact of bullying, the responsibilities of bystanders to report bullying and how and where to get help.
7. Skills for ending relationships or friendships with kindness and managing the difficult feelings that endings might bring, including disappointment, hurt or frustration.
8. The role of consent, including in romantic and sexual relationships. Pupils should understand that ethical behaviour goes beyond consent and involves kindness, care, attention to the needs and vulnerabilities of the other person, as well as an awareness of

power dynamics. Pupils should understand that just because someone says yes to doing something, that doesn't automatically make it ethically ok.

9. How stereotypes, in particular stereotypes based on sex, gender reassignment, race, religion, sexual orientation or disability, can cause damage (e.g. how they might normalise non-consensual behaviour or encourage prejudice). Pupils should be equipped to recognise misogyny and other forms of prejudice.

10. How inequalities of power can impact behaviour within relationships, including sexual relationships. For example, how people who are disempowered can feel they are not entitled to be treated with respect by others or how those who enjoy an unequal amount of power might, with or without realising it, impose their preferences on others.

11. How pornography can negatively influence sexual attitudes and behaviours, including by normalising harmful sexual behaviours and by disempowering some people, especially women, to feel a sense of autonomy over their own body and providing some people with a sense of sexual entitlement to the bodies of others.

12. Pupils should have an opportunity to discuss how some sub-cultures might influence our understanding of sexual ethics, including the sexual norms endorsed by so-called "involuntary celibates" (incels) or online influencers.

Online safety and awareness Curriculum content:

1. Rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online.

2. Online risks, including the importance of being cautious about sharing personal information online and of using privacy and location settings appropriately to protect information online. Pupils should also understand the difference between public and private online spaces and related safety issues.

3. The characteristics of social media, including that some social media accounts are fake, and / or may post things which aren't real / have been created with AI. That social media users may say things in more extreme ways than they might in face-to-face situations, and that some users present highly exaggerated or idealised profiles of themselves online.

4. Not to provide material to others that they would not want to be distributed further and not to pass on personal material which is sent to them. Pupils should understand that any material provided online might be circulated, and that once this has happened there is no way of controlling where it ends up. Pupils should understand the serious risks of sending material to others, including the law concerning the sharing of images.

5. That keeping or forwarding indecent or sexual images of someone under 18 is a crime, even if the photo is of themselves or of someone who has consented, and even if the image was created by the child and/or using AI generated imagery. Pupils should understand the

potentially serious consequences of acquiring or generating indecent or sexual images of someone under 18, including the potential for criminal charges and severe penalties including imprisonment. Pupils should know how to seek support and should understand that they will not be in trouble for asking for help, either at school or with the police, if an image of themselves has been shared. Pupils should also understand that sharing indecent images of people over 18 without consent is a crime.

6. What to do and how to report when they are concerned about material that has been circulated, including personal information, images or videos, and how to manage issues online.

7. About the prevalence of deepfakes including videos and photos, how deepfakes can be used maliciously as well as for entertainment, the harms that can be caused by deepfakes and how to identify them.

8. That the internet contains inappropriate and upsetting content, some of which is illegal, including unacceptable content that encourages misogyny, violence or use of weapons. Pupils should be taught where to go for advice and support about something they have seen online. Pupils should understand that online content can present a distorted picture of the world and normalise or glamorise behaviours which are unhealthy and wrong.

9. That social media can lead to escalations in conflicts, how to avoid these escalations and where to go for help and advice.

10. How to identify when technology and social media is used as part of bullying, harassment, stalking, coercive and controlling behaviour, and other forms of abusive and/or illegal behaviour and how to seek support about concerns.

11. That pornography, and other online content, often presents a distorted picture of people and their sexual behaviours and can negatively affect how people behave towards sexual partners. This can affect pupils who see pornographic content accidentally as well as those who see it deliberately. Pornography can also portray misogynistic behaviours and attitudes which can negatively influence those who see it.

12. How information and data is generated, collected, shared and used online.

13. That websites may share personal data about their users, and information collected on their internet use, for commercial purposes (e.g. to enable targeted advertising).

14. That criminals can operate online scams, for example using fake websites or emails to extort money or valuable personal information. This information can be used to the detriment of the person or wider society. About risks of sextortion, how to identify online scams relating to sex, and how to seek support if they have been scammed or involved in sextortion.

15. That AI chatbots are an example of how AI is rapidly developing, and that these can pose risks by creating fake intimacy or offering harmful advice. It is important to be able to critically think about new types of technology as they appear online and how they might pose a risk.

Being Safe Curriculum content:

1. How to recognise, respect and communicate consent and boundaries in relationships, including in early romantic relationships (in all contexts, including online) and early sexual relationships that might involve kissing or touching. That kindness and care for others requires more than just consent.
2. That there are a range of strategies for identifying, resisting and understanding pressure in relationships from peers or others, including sexual pressure, and how to avoid putting pressure on others.
3. How to determine whether other children, adults or sources of information are trustworthy, how to judge when a relationship is unsafe (and recognise this in the relationships of others); how to seek help or advice, including reporting concerns about others, if needed.
4. How to increase their personal safety in public spaces, including when socialising with friends, family, the wider community or strangers. Pupils should learn ways of seeking help when needed and how to report harmful behaviour. Pupils should understand that there are strategies they can use to increase their safety, and that this does not mean they will be blamed if they are victims of harmful behaviour. Pupils might reflect on the importance of trusting their instincts when something doesn't feel right, and should understand that in some situations a person might appear trustworthy but have harmful intentions.
5. What constitutes sexual harassment or sexual violence, and that such behaviour is unacceptable, emphasising that it is never the fault of the person experiencing it.
6. That sexual harassment includes unsolicited sexual language / attention / touching, taking and/or sharing intimate or sexual images without consent, public sexual harassment, pressuring other people to do sexual things, and upskirting.
7. The concepts and laws relating to sexual violence, including rape and sexual assault.
8. The concepts and laws relating to harmful sexual behaviour, which includes all types of sexual harassment and sexual violence among young people but also includes other forms of concerning behaviour like using age-inappropriate sexual language.
9. The concepts and laws relating to domestic abuse, including controlling or coercive behaviour, emotional, sexual, economic or physical abuse, and violent or threatening behaviour.

10. That fixated, obsessive, unwanted and repeated behaviours can be criminal, and where to get help if needed.
11. The concepts and laws relating to harms which are exploitative, including sexual exploitation, criminal exploitation and abuse, grooming, and financial exploitation.
12. The concepts and laws relating to forced marriage.
13. The physical and emotional damage which can be caused by female genital mutilation (FGM), virginity testing and hymenoplasty, where to find support, and the law around these areas. This should include that it is a criminal offence for anyone to perform or assist in the performance of FGM, virginity testing or hymenoplasty, in the UK or abroad, or to fail to protect a person under 16 for whom they are responsible.
14. That strangulation and suffocation are criminal offences, and that strangulation (applying pressure to the neck) is an offence, regardless of whether it causes injury. That any activity that involves applying force or pressure to someone's neck or covering someone's mouth and nose is dangerous and can lead to serious injury or death.
15. That pornography presents some activities as normal which many people do not and will never engage in, some of which can be emotionally and/or physically harmful.
16. How to seek support for their own worrying or abusive behaviour or for worrying or abusive behaviour they have experienced from others, including information on where to report abuse, and where to seek medical attention when required, for example after an assault.

Intimate and sexual relationships, including sexual health Curriculum content:

1. That sex, for people who feel ready and are over the age of consent, can and should be enjoyable and positive.
2. The law about the age of consent, that they have a choice about whether to have sex, that many young people wait until they are older, and that people of all ages can enjoy intimate and romantic relationships without sex.
3. Sexual consent and their capacity to give, withhold or remove consent at any time, even if initially given, as well as the considerations that people might take into account prior to sexual activity, e.g. the law, faith and family values. That kindness and care for others require more than just consent.
4. That all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, e.g. physical, emotional, mental, sexual and reproductive health and wellbeing.
5. That some sexual behaviours can be harmful.

6. The facts about the full range of contraceptive choices, efficacy and options available, including male and female condoms, and signposting towards medically accurate online information about sexual and reproductive health to support contraceptive decision making.
7. That there are choices in relation to pregnancy. Pupils should be given medically and legally accurate and impartial information on all options, including keeping the baby, adoption, abortion and where to get further help.
8. How the different sexually transmitted infections (STIs), including HIV, are transmitted. How risk can be reduced through safer sex (including through condom use). The use and availability of the HIV prevention drugs Pre-Exposure Prophylaxis (PrEP) and Post Exposure Prophylaxis (PEP) and how and where to access them. The importance of, and facts about, regular testing and the role of stigma
9. The prevalence of STIs, the short and long term impact they can have on those who contract them and key facts about treatment.
10. How the use of alcohol and drugs can lead people to take risks in their sexual behaviour.
11. How and where to seek support for concerns around sexual relationships including sexual violence or harms.
12. How to counter misinformation, including signposting towards medically accurate information and further advice, and where to access confidential sexual and reproductive health advice and treatment.

Mental wellbeing Curriculum content:

1. How to talk about their emotions accurately and sensitively, using appropriate vocabulary.
2. The benefits and importance of physical activity, sleep, time outdoors, community participation and volunteering or acts of kindness for mental wellbeing and happiness.
3. That happiness is linked to being connected to others. Pupils should be supported to understand what makes them feel happy and what makes them feel unhappy, while recognising that loneliness can be for most people an inevitable part of life at times and is not something of which to be ashamed.
4. That worrying and feeling down are normal, can affect everyone at different times and are not in themselves a sign of a mental health condition, and that managing those feelings can be helped by seeing them as normal.
5. Characteristics of common types of mental ill health (e.g. anxiety and depression), including carefully-presented factual information about the prevalence and characteristics of more serious mental health conditions. This should not be discussed in a way that encourages normal feelings to be labelled as mental health conditions.
6. How to critically evaluate which activities will contribute to their overall wellbeing.

7. Understanding how to overcome anxiety or other barriers to participating in fun, enjoyable or rewarding activities – that it's possible to overcome those barriers using coping strategies, and that finding the courage to participate in activities which initially feel challenging may decrease anxiety over time rather than increasing it.
8. That gambling can lead to serious mental health harms, including anxiety, depression, and suicide, and that some gambling products are more likely to cause these harms than others.
9. That the co-occurrence of alcohol/drug use and poor mental health is common and that the relationship is bi-directional: mental health problems can increase the risk of alcohol/drug use, and alcohol/drug use can trigger mental health problems or exacerbate existing ones. That stopping smoking can improve people's mental health and decrease anxiety.

Wellbeing online Curriculum content:

1. About the benefits of limiting time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.
2. The similarities and differences between the online world and the physical world, including: the impact of unhealthy or obsessive comparison with others online (including through setting unrealistic expectations for body image); how people may curate a specific image of their life online; the impact that an over-reliance on online relationships, including relationships formed through social media, can have.
3. How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours.
4. The risks related to online gambling and gambling-like content within gaming, including the accumulation of debt.
5. How advertising and information is targeted at them and how to be a discerning consumer of information online, understanding the prevalence of misinformation and disinformation online, including conspiracy theories.
6. The risks of illegal behaviours online, including drug and knife supply or the sale or purchasing of illicit drugs online.
7. The serious risks of viewing online content that promotes self-harm, suicide or violence, including how to safely report this material and how to access support after viewing it.

Physical health and fitness Curriculum content:

1. The characteristics of a healthy lifestyle, including physical activity and maintaining a healthy weight, including the links between an inactive lifestyle and ill-health, including cardiovascular ill-health.

2. Factual information about the prevalence and characteristics of more serious health conditions.
3. That physical activity can promote wellbeing and combat stress.
4. The science relating to blood, organ and stem cell donation.

Healthy eating Curriculum content:

1. How to maintain healthy eating and the links between a poor diet and health risks, including tooth decay, unhealthy weight gain, and cardiovascular disease.
2. The risks of unhealthy weight gain, including increased risks of cancer, type 2 diabetes and cardiovascular disease.
3. The impacts of alcohol on diet and unhealthy weight gain.

Drugs, alcohol, tobacco and vaping Curriculum content:

1. The facts about which drugs are illegal, the risks of taking illegal drugs, including the increased risk of potent synthetic drugs being added to illegal drugs, the risks of illicit vapes containing drugs, illicit drugs and counterfeit medicines, and the potential health harms, including the link to poor mental health.
2. The law relating to the supply and possession of illegal substances.
3. The physical and psychological risks associated with alcohol consumption. What constitutes low risk alcohol consumption in adulthood, and the legal age of sale for alcohol in England. Understanding how to increase personal safety while drinking alcohol, including how to decrease the risks of having a drink spiked or of poisoning from potentially fatal substances such as methanol.
4. The physical and psychological consequences of problem-use of alcohol, including alcohol dependency.
5. The dangers of the misuse of prescribed and over-the-counter medicines.
6. The facts about the multiple serious harms from smoking tobacco (particularly the link to lung cancer and cardiovascular disease), the benefits of quitting and how to access support to do so.
7. The facts about vaping, including the harms posed to young people, and the role that vapes can play in helping adult smokers to quit.

Health protection and prevention, and understanding the healthcare system Curriculum content:

1. Personal hygiene, germs and how they are spread, including bacteria and viruses, treatment and prevention of infection, and about antibiotics.

2. Dental health and the benefits of good oral hygiene, including brushing teeth twice a day with fluoride toothpaste and cleaning between teeth, reducing consumption of sugar-containing food and drinks, and regular check-ups at the dentist.
3. How and when to self-care for minor ailments, and the role of pharmacists as knowledgeable healthcare professionals.
4. The importance of taking responsibility for their own health, and the benefits of regular self-examination and screening.
5. The facts and scientific evidence relating to vaccination, immunisation and antimicrobial resistance. The introduction of topics relating to vaccination and immunisation should be aligned with when vaccinations are offered to pupils.
6. The importance of sufficient good-quality sleep for good health, the importance of screen-free time before bed and removing phones from the bedroom, and how a lack of sleep can affect weight, mood and ability to learn.
7. The importance of healthy behaviours before and during pregnancy, including the importance of pre-conception health, including taking folic acid. The importance of pelvic floor health. Information on miscarriage and pregnancy loss, and how to access care and support.
8. How to navigate their local healthcare system: what a GP is; when to use A&E / minor injuries; accessing sexual health and family planning clinics; the role of local pharmacies; and how to seek help via local third sector partners which may have specialist services.
9. The concept of Gillick competence. That the legal age of medical consent is 16. That before this, a child's parents will have responsibility for consenting to medical treatment on their behalf unless they are Gillick competent to take this decision for themselves. Pupils should understand the circumstances in which someone over 16 may not be deemed to have capacity to make decisions about medical treatment.

Personal safety Curriculum content:

1. How to identify risk and manage personal safety in increasingly independent situations, including around roads, railways – including level crossings - and water (including the water safety code), and in unfamiliar social or work settings (for example the first time a young person goes on holiday without their parents).
2. How to recognise and manage peer influence in relation to risk-taking behaviour and personal safety, including peer influence online and on social media.
3. How to develop key social and emotional skills that will increase pupils' safety from involvement in conflict and violence. These include skills to support self-awareness, self-management, social awareness, relationship skills and responsible decision making, as well as skills to recognise and manage peer pressure.

4. Understanding which trusted adults they can talk to if pupils are worried about violence and/or knife crime.
5. The law as it relates to knives and violence. Content and examples should relate to the local context and avoid using fear as an educational tool. Children should be taught that carrying weapons is uncommon, and should not be scared into the perception that many young people are carrying knives (which can lead to the misconception that they need to carry a knife too).
6. The risks and signs that they may be at risk of grooming or exploitation, and how to seek help where there is a concern.

Basic first aid Curriculum content:

1. Basic treatment for common injuries and ailments.
2. Life-saving skills, including how to administer CPR
3. The purpose of defibrillators, when one might be needed and who can use them.

Developing bodies Curriculum content:

1. The main changes which take place in males and females, and the implications for emotional and physical health.
2. The facts about puberty, the changing adolescent body, including brain development.
3. About menstrual and gynaecological health, including: what is an average period; period problems such as premenstrual syndrome; heavy menstrual bleeding; endometriosis; and polycystic ovary syndrome (PCOS). When to seek help from healthcare professionals.
4. The facts about reproductive health, including fertility and menopause, and the potential impact of lifestyle on fertility for men and women.

Lesbian, Gay, Bisexual and Transgender content

Pupils should develop an understanding of equality and respect, including all protected characteristics, by the end of secondary education. In primary schools, teaching should include healthy relationships and diverse families, including same-sex parents, while at secondary level pupils should explore stable relationships, sexual health and relevant facts for all pupils, including those who are LGBT.

Secondary teaching must cover the law on biological sex and gender reassignment, ensuring pupils understand rights and protections from discrimination, while promoting respect and dignity for all. Schools should present content factually and without promoting particular viewpoints, avoid reinforcing stereotypes, and ensure materials are appropriate. Pupils should be encouraged to express views respectfully, with clear expectations that

discrimination or bullying is unacceptable, and parents should be able to access and understand curriculum materials
