

# Year 5 Newsletter

Autumn Term 1 2022-23

Welcome back to school and to year 5!

## Whole School Project- Shackleton

Our whole school project is based on Sir Ernest Shackleton. Shackleton is best known as a polar explorer, who was associated with four expeditions exploring Antarctica. As a school, we are mainly focussing on his Trans-Antarctic experience aboard the Endurance (1914-16) that he led, which, although unsuccessful, became famous as a tale of remarkable perseverance and survival. The children will be producing several writing outcomes related to this extraordinary tale. In year 5, these will include a biography of Shackleton, and a diary entry from the point of view of his crew members.

## The Explorer

We will also be using the book 'The Explorer' to support our reading lessons. This novel, written by the up-and-coming author, Katherine Rundell, tells the story of four children and their fight for survival in the rainforest after a plane crash. Copies of certain Chapters will be available on Showbie in week 4.

We will be using a range of carefully chosen texts to support and develop the children's reading ability throughout year 5.

## Value of the Month

This term, we will explore the values of **responsibility** and **respect**.

### Mobile phones

Children are allowed to bring mobile phones into school. These must be handed into the child's class teacher every morning. They will be returned to the children at the end of the school day.

### Fruit

Children can bring in a piece of fruit to eat during break time.

## Home Learning

Your child must read at home each night to make good progress. Parents/carers can help pupils by reading alongside with them and by asking questions in relation to the text. This can be based on the language that the author uses, predictions /inferences that can be made from the text and by also encouraging the children to write down any words that they may not understand. We have our own 'Word of the Week' display in our classroom, and we are always keen to share new vocabulary with the class.

Your child will continue to receive weekly spellings and times tables challenges, alongside additional tasks. These will be set on Friday and must be completed by the following Thursday. It is vital that homework and reading is taken seriously, particularly as the pupils are now becoming independent learners and this is good practice to prepare them for year 6. Pupils are expected to read every day and record their progress in their home learning journals. Parents/carers need to acknowledge this through a signature once a week. The journals are checked weekly.

## Science topic- Earth and Space

In our science lessons this term, children will be taught to:

- Describe the movement of the Moon, Earth, and other planets, relative to the Sun.
- Describe the apparent movement of the Sun across the sky.
- Explain why day and night are at different times around the world.

### School timings

Children can come into school from 8.40am where they will be given morning activities to complete.

### Physical education

This half term, 5TS will have their P.E. lessons on Mondays and 5SA will have their lessons on Tuesdays. Both classes' lessons will cover a variety of games and team building exercises. On the day of their P.E. lessons, children can wear their P.E. kits for the duration of the day.

### Uniform

Please remember to label all uniform items with the child's full name.

Lastly, we would like to say a massive welcome to everyone in connection with 6SO and 6DM. We look forward to a wonderful year. Mrs. Ormond and Mr. Mitakos.
